

## Forward Air Solutions Relocates Nashville Terminal

Forward Air Solutions has combined operations with the existing Forward Air, Inc. location in Nashville, Tennessee. This move facilitates increased flexibility and quicker response times to changing customer needs.

The facility will serve Tennessee points within a 200 mile radius of Nashville, as well as the Kentucky cities of Bowling Green and Hopkinsville, on a daily basis. Service is also available to Louisville and Lexington on a pre-arranged basis. The station also serves the northern Alabama cities of Huntsville, Florence and Decatur, with pre-arranged service extending as far south as Birmingham.

The Nashville location has 40,000 square feet of floor space with 10 operating doors, providing efficient routing of inbound freight as well as the outbound distribution of retail goods on a daily basis.

The station is manned by a well experienced staff working in concert with drivers that exhibit professionalism and dedication to provide a quality delivery experience for our customers. Our Nashville facility is now equipped to expand rapidly to meet the changing needs of existing customers and prospective clients.
