

Forward Air Solutions Dallas Terminal

EFFECTIVE: February 22, 2010

Forward Air Solutions has promoted Reid Gary to manage our location in Dallas, Texas.

The facility serves Texas points in the greater Metroplex as well as West Texas, serving Abilene, San Angelo, Midland and Odessa. DFW will also serve all major cities east of DFW - including Terrell, Tyler and Longview.

The Dallas location has 65,000 square feet of warehouse space with 40 doors and a state of the art semi-automated conveyor system, providing efficient routing of inbound freight as well as the outbound distribution of retail product on a daily basis.

The station is manned by experienced staff working in concert with professionalism and a dedication to provide the best delivery experience for our valued customers. Our Dallas facility is now more equipped to expand rapidly to meet the changing needs of existing customers and prospective clients.
