

## Forward Air Solutions Moves Up in Denver

This month, Forward Air Solutions has moved its distribution service center in Denver, Colorado to a new location to improve dispatch and handling flexibility. We now operate in the same complex as Forward Air, Inc., making it fast and simple to expand our operations with any customer's changing needs.

The facility totals 85,000 square feet with a significant portion dedicated to the Forward Air Solutions service center for its pool distribution customers. With 16 doors to manage the flow of inbound trailers for unload into the sort operation and loading out the delivery fleet, customers within a 200 mile radius of Denver receive faster transit along with precision delivery times as access to major highways has been improved with this new location.

“Our new location positions us well to provide more services utilizing this new capacity with our customers,” stated Jerry Cooper, Forward Air Solutions Vice President Sales & Marketing. “We are excited to establish this operation to help us meet the long-term growth goals of our distribution services.”

Forward Air Solutions delivers to over 220 zip codes throughout the state of Colorado with service into Wyoming, including Casper, Cheyenne and Laramie. Our dedicated delivery fleet operates daily deliveries to retail stores throughout both states providing time specific service to each location.

The new facilities address and phone information is:

Forward Air Solutions  
4555 Geneva Street  
Denver CO 80238  
Phone 303-373-9460
